This program consists of seven activities that provide for the regulation of financial and commercial affairs in order to maintain and strengthen a sound financial and commercial environment in designated areas for equitable exchanges of property and services. This is achieved through disclosure to the public of the essential elements of business transactions including the issuing of securities, registration and licensing of persons dealing with the public to assure a high degree of competence and honesty in their dealings, and examination and surveillance of the financial standing and practices of firms. In addition this program provides services for incorporation of companies, administration of The Motor Vehicle Accident Claims Act in respect of the adjustment of claims and payment of damages occasioned by the operation of stolen, unidentified or uninsured motor vehicles, and provision for appeal hearings with respect to matters of licensing under various acts administered by the Ministry.

This program consists of six operating activities, co-ordinated by the office of the Executive Director, which are responsible for minimizing risk inherent in designated environmental, technical and operational situations. This goal is accomplished through the inspection of elevators, pressure vessels, upholstered and stuffed articles, the transmission, transportation, distribution and utilization of natural gas, propane and fuel oil and the issuance of licences for the operation of elevators and pressure vessels. The Uniform Building Standards activity is seeking to establish, through several advisory committees, a system of uniform buildings and fire safety standards for the Province.

**Program description:**

The Industrial Incentives and Development Program provides technical, business and financial services and loans or the guarantee of loans to encourage and assist in the development and diversification of industry in Ontario. Term loans are made to secondary manufacturing operations, service industries in support of manufacturing, the tourist industry, for anti-pollution and abatement equipment, and for the encouragement of new exports. To provide incentive, in certain circumstances term loans are made under the Ontario Business Incentive Program and may allow for deferral of principal repayments, interest-free or low interest terms. The latter program replaces the Performance Loans previously available for the equalization of industrial opportunity in slow growth areas of the Province. Included in the Ontario Development Corporation are funds for the support services provided to the Northern Ontario Development Corporation and the Eastern Ontario Development Corporation.
